

# ELECTRIC HAIR DRYERS

## KALIPHONE

↻ automatic ON/OFF

### DESCRIPTION:

The electric hair dryer KALIPHONE, with its sober and elegant design, finds its natural place in all those premises destined for the community (gyms, malls, hotels etc.).

Silent and reliable operations are making this product one of the most innovative and simple to use on the market.

### MAIN FEATURES:

- Made of impact and thermo-resistant ABS resin.
- Counter-flange for wall mounting.
- Extensible tube up to 1,8 m with comfortable handle.
- Magnetic hooking of the handle to the device.
- Automatic ON/OFF during handle unhooking/hooking up from/to the device.
- Adjustable air flow and temperature in two positions.
- Power supply at 230 V and 115 V for using electric shavers, already included and protected by a sliding cap.
- Protection system with automatic shut off (pre-set with a delay of approximately 10 minutes), in case of failure for positioning the handle on its place.

IPX1
